This Action is responsive to the communication filed December 1, 2008.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2, 4-7, and 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by DE '179, of record.

It is believed that the pertinence of the reference is readily apparent. The recitation of "compressed air" merely relates to intended use and is given no weight. The Examiner agrees with the assessment of the EPO Examiner.

Applicant's arguments have been fully considered but they are not persuasive. DE '179 corresponds to US 6,169,338 which disclosure relates to a bus system for recognizing the different modules.

Claims 1-2, 4-7, 9-14 are, in the alternative, rejected under 35 U.S.C. 103(a) as being unpatentable over DE '179.

In the alternative, particulars recited, such as a circuit board, are considered to be obvious matters of design choice or routine engineering in that the particulars are well known.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3753

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
